SUMMARY

- Seasoned Senior Software Engineer with ~5 years of experience in consulting, consumer goods and fintech, building fullstack TypeScript products for international clients.
- Core stack: Node.js, TypeScript, React, AWS (Lambda, DynamoDB, SQS) and PostgreSQL, from monolith decomposition to serverless backends.
- Currently serving as Senior Consultant at Thoughtworks, delivering fullstack features for international clients in distributed teams.
- Recognized for clear written communication: specs, architecture decision records (ADRs) and CI quality gates that keep decisions explicit and reviewable.
- Built and operates Lucky, a Discord bot serving 50+ servers and 100k+ members, with staging and production deploys and mutation testing in CI.

SKILLS

- **Proficient:** TypeScript, JavaScript, Node.js (Express), React, Next.js, Python, REST API design, AWS (Lambda, API Gateway, AppSync, DynamoDB, SQS, EventBridge, S3, CloudWatch), PostgreSQL, Prisma, Docker, Git, GitHub Actions, Azure DevOps, Jest, Vitest, Playwright, Clean Code, SOLID, Agile (Scrum, Kanban), LLM integrations, RAG, MCP servers, AI-assisted development (Claude Code, GitHub Copilot, Cursor)
- **Intermediate:** Clean Architecture, C#, .NET Razor Pages, Observability (Splunk, Grafana, Prometheus, Sentry), Jenkins, Cloudflare Workers, Redis, Terraform, SQL Server, Tailwind CSS
- **Beginner:** Go, Rust, Java (Spring Boot), Kubernetes (k3s), GraphQL, MongoDB

WORK EXPERIENCE

THOUGHTWORKS (Brazil, remote) · 01/2026 to present
Senior Consultant, Software Developer

- Shipped reporting features for a restaurant-technology client by building React and Node.js components in TypeScript, within a distributed delivery team (07/2026 to 09/2026).
- Contributed to a digital payments platform for a global cosmetics retailer (05/2026).
- Kept AI-generated code production-safe by reviewing and validating every change with automated tests, using AI coding assistants in daily delivery.

CI&T (remote) · 01/2024 to 12/2025
Software Engineer, Fullstack

- Shipped backend services for the mobile app and the product-personalization platform of a global consumer brand by building Node.js (Express) and AWS Lambda services deployed through Jenkins pipelines.
- Reduced regressions on REST APIs and Node.js microservices by expanding automated test coverage with Mocha and Jest in Jenkins CI pipelines.
- Shortened incident diagnosis for distributed Node.js services by implementing Splunk-based observability and monitoring.
- Delivered frontend features for a US financial services company by building C# Razor Pages views, in a team spread across the US, Colombia and Brazil (2025).
- Collaborated daily in a multi-vendor, multinational delivery team with engineers from Brazil, India and Pakistan.

TRINUS CO. (Goiania, remote) · 11/2022 to 12/2023
Software Developer, Fullstack

- Reached 550+ employees with an internal Kanban workspace built with React and Node.js, centralizing task tracking.
- Enabled parallel delivery across teams by decomposing the platform from a monolith into TypeScript/Node.js microservices with shared typed contracts.
- Reduced manual work by automating business processes with Python, Power Automate and Selenium.

V.SANTANA (Goiania, remote) · 12/2021 to 11/2022
Software Developer, Fullstack

- Delivered 10+ fullstack applications (custom ERP, educational and institutional) for local businesses with React and Node.js, replacing manual workflows from requirements to deployment.

SELECTED PROJECTS

- **hitgate:** Retrieval regression gate for RAG systems (Python, published on PyPI). Hybrid BM25 + dense retrieval with label-free evaluation; with the optional reranker, raised Hit@1 by 46%, from 0.56 to 0.82, on a 50-query golden set.
- **Lucky:** Discord bot serving 50+ servers and 100k+ members, with a React dashboard, listed on top.gg. TypeScript monorepo (discord.js, Prisma, Redis/BullMQ, Sentry) with a migration gate and mutation testing in CI.
- **sharekit:** CLI to share and install AI coding setups with preview and rollback (TypeScript, published on npm and PyPI), with security and cross-platform tests.

EDUCATION

- Systems Analysis and Development, FIAP (2025)

CERTIFICATIONS

- AWS Certified Cloud Practitioner (2026)

LANGUAGES

- Portuguese: native · English: Advanced / Fluent (C1) · Spanish: basic communication
